

May 17, 1971

PRESIDENT: Ready for the General File debate of LB722.

CLERK: Read title.

LB 722

PRESIDENT: Senator Klaver.

(End of belt #5)

We have Senator Holmquist's motion to amend the committee amendments which would then put them in the form for them to be considered by the Body.

SENATOR HOLMQUIST: Mr. President, Members of the Legislature, the Standing Committee amendments was offered in the committee by myself and when the amendment was taken over to the bill drafter's office and written for the book an error was made. This was a reason that the amendment to the amendment is offered to the committee. This is the amendment that the Clerk just read. This is merely a corrective amendment on the Standing Committee amendment which was offered to the Legislative Body by the committee. I move for its adoption.

PRESIDENT: Any further discussion. All those in favor of the Holmquist amendment to the committee amendment say aye, opposed say no. The amendments are adopted.

CLERK: Motion to strike the committee amendments.

SENATOR HOLMQUIST: Well Mr. President, Members of the Legislature, is it procedural to explain the committee amendments first before this move to strike them.

SENATOR DUIS: Mr. President, I've extended every courtesy possible. Some one else has messed with this bill on General File up and down. The good lobbyists and whoever else is involved here have run it up and down and I've made no objection this morning. I'd sure give them a first chance. I just want to give them all the chance they got.

SENATOR HOLMQUIST: Now Senator Klaver is the Chairman of the committee. Do you want me to explain the amendments that I offered to the committee? Mr. President, Members of the Legislature, the amendment that was offered to the committee and I will read it to you. The rates and premiums charged for insurance policy to which this act applies will include an amount sufficient to recoup a sum equal to the amount paid to the association by the members insured less any amount returned by the member insurer by the association and such rates shall not be deemed excessive because they contain the amount reasonably
