SENATOR DUIS: Senator Swanson, in regards to this federal regulation (inaudible) I noticed in the city of Lincoln here especially on your one way streets where there are four lanes on your right and your left hand turns they are not all the same, some streets have a mandatory in the inside lane and an optional in the next lane and other streets have an optional in the inside and a mandatory straight ahead on the next lane too it. Is there anything in this that your a thought here that might correct the situation even within the city so that a person would know what he was doing.

SENATOR SWANSON: Senator Duis that is one of the things that we are trying to get resolved here. We are meeting with the people from the city today and see if we can't get something straightened out. I agree with you, it is a bad situation.
