

January 8, 1993

comments. I agree with what Senator Withem said about changes that have to be made in the process, but I do want to just discuss briefly what went on in our Committee on Committees meeting this morning. In our committee, there were two changes made. Senator Coordsen and myself represent that Committee on Committees. Senator Moore was not here today. Our two changes were made because the members of our Committee on Committees supported those. The reason that the other change wasn't made was because the Committee on Committees that was elected by the number...by the caucus in the Omaha area did not support it, people. And, remember, we elect our members on the Committee on Committees. They elected Senator Moore, they elected myself and they elected Senator Coordsen. The three people that represent the Omaha caucus were elected by those people. If we are going to keep the integrity of the Committee on Committees, you should support the Committee on Committees report. If not, we have complete chaos. And as I said, I agree with Senator Withem, I think the entire Committee on Committees agree there should be some changes made. But those people were elected, regardless of the personal feelings. I was on Appropriations last year. There was a change made in the rules, I am not on the Appropriations Committee this year, but that's what happens. Changes are made and the world goes on, and you have to learn that when you are in this body, and the freshmen senators will learn that. You will find out everyone is going to vote against you probably before the week is out, but you have got to toughen up, folks, because that is the way the game is played. Thank you.

SPEAKER BAACK: Thank you, Senator Robinson. Senator Robak.

SENATOR ROBAK: Thank you, Mr. Speaker and members of the body. First of all, I would like to thank my caucus for handling the affairs that they did for me. Although I did not get my first and my second choice, and they did go to the freshmen senators, they did see that I did finally get off the committee that I did not want to be on. So I do thank them for handling that for me, and I thank the committee for everything that they did do today. But I guess I have a question for Senator Chambers, if I could. You so eloquently said how qualified you were for the Judiciary Committee, why did you not run for the Judiciary Committee so that we could all have a chance to vote for you on the floor?

SPEAKER BAACK: Senator Chambers.
