

program of this kind is the one which could be the vehicle for really attacking the problems that I think have been ignored up to now. But I think it would be a mistake to take something which is ineffective, inadequate at the very beginning. If we would bracket the bill, and I put up there the 6th of April, because that is not a very long time, we could try to have some meetings, those who have an interest, and see what we could put together that would offer some reassurance. I'd like to ask Senator Abboud a question, because it is his bill.

SENATOR HALL: Senator Abboud, would you respond.

SENATOR CHAMBERS: Senator Abboud, have you seen a fiscal note that you would say is reliable in terms of what the cost would be of a program of this kind? I am not going to call it a boot camp now, that would include the kind of programmatic structuring that Senator Pedersen, myself, Senator Hohenstein, Senator Ashford, Senator Crosby, and others have discussed?

SENATOR ABOUD: Yes.

SENATOR CHAMBERS: What is the projected cost of all of that?

SENATOR ABOUD: Well, there is, in your bill, there is a fiscal note that the Department of Corrections has presented to the Legislature as to a facility, whether it be a stand-alone unit or an attached unit to another medium security facility. So there is a fiscal note in our book.

SENATOR CHAMBERS: What is the amount for the record?

SENATOR ABOUD: Well, I think you can...it depends on what kind of facility you are going to operate.

SENATOR CHAMBERS: So then we don't have a fiscal note established that would deal with what we are discussing in terms of the programming and so forth. None has been prepared to...

SENATOR ABOUD: Yeah, you can...yeah, that is what I am trying to say, it depends. Now there is three, four different types here you can operate; the construction estimate, the light commercial type, the medium, or community custody supporting 100 correctional facilities, 32,136 gross square feet, construction costs would be 3,900,000. A light commercial type medium or community custody support for 200 would provide for a gross
