

generate.

SENATOR WITEK: Thank you very much and I would yield the rest of my time to Senator Jones.

PRESIDENT MOUL: Senator Jones.

SENATOR JONES: Madam President and members of the body, I just want to rise in support of these amendments because I was in on most of the discussion on this, but I...my wife is from this area and I got a first-hand example of what is happening out there. I just say that the 80 acres that you had would get a water right on right off the start and there's been canals go along it or a road go around it and even homesteads filled in the corner of it and the farmer has already transferred it to another spot but probably illegally did it. And this here bill, this is a good piece of legislation and I'm glad that Bob Wickersham brought it because this allows them to change that in a legal form and otherwise, just like they said, that they asked for it from the Water Resource, they might turn them down but with this piece of legislation maybe we can get this out of the way and we do have a sunset in it so it will just last a few years, so, and they can all get done in that time. So, thank you.

PRESIDENT MOUL: Thank you, Senator Jones. Senator Wehrbein.

SENATOR WEHRBEIN: Madam Speaker and members, I guess I, you just, Senator Jones just touched on a question I wanted to ask and I guess, Senator Wickersham, I'd ask you about the sunset. In other words, is this intended to be a three-year, if it's three, '96, three-year window of opportunity for this to happen and then we revert to...what do I call it, regular law? Is that the intent?

SENATOR WICKERSHAM: That's correct.

SENATOR WEHRBEIN: Thank you.

PRESIDENT MOUL: Thank you, Senator Wehrbein. Senator Hartnett.

SENATOR HARTNETT: Madam President, members of the body, I rise to support the amendment by...and the bill, 302. Senator Wickersham, If I could ask you a question. I know the problem was just in your area of the state. Does this affect other
