

SPEAKER BAACK: Time.

SENATOR CHAMBERS: You all know that and I know it too, but it makes no difference when we formulate policy because, as Senator Moore always says, it's the bottom line and the bottom line is money and you get the money from the ones it's easiest to get it from. And these people have no voice on the floor of the Legislature. I'm trying to do the best that I can but I can't even be their voice because it's hard for somebody not in pain to express the pain of somebody else.

SPEAKER BAACK: Time. Thank you, Senator Chambers. Any other discussion? Seeing none, Senator Kristensen, do you wish to close?

SENATOR KRISTENSEN: Briefly, Mr. Speaker, and members of the Legislature, again, this is the last...or the, not the last but this is the reinstatement sections of the divided amendment. This is Section 1, 10, 13, and 15 which is the reinstatement fee, which is currently \$50. The proposed change is an additional \$50 to make it up, \$100. I would urge the adoption of this portion of the amendment. Thank you.

SPEAKER BAACK: Thank you, Senator Kristensen. We will now vote on this portion of the committee amendments. All those in favor vote aye, opposed vote no. Have you all voted? Record, Mr. Clerk. A record vote has been requested.

CLERK: (Read record vote. See pages 2128-29 of the Legislative Journal.) 29 ayes, 6 nays, Mr. President.

SPEAKER BAACK: That portion of the committee amendments are adopted. We are now on the final portion of the committee amendments which are Sections 17 through 20, if I'm not mistaken. Senator Kristensen.

SENATOR KRISTENSEN: Yes, Mr. Speaker, members, this is the final division that is Sections 17 through 20. Section 17 is legislative intent language for the Legislature finding that VTR is essential. Senator Moore has talked at length about that to the state operation, also that DMV is going to use a portion of these fees to pay the VTR costs, including but I don't think it's limited to the software, software maintenance, the programming, processing charges and some of the equipment
