

SENATOR WEHRBEIN: Yes, Mr. Speaker and member. Senator Beutler, this is going to be another question for you. I was standing here, chewing on this a little bit. We went through quite an intense amendment process a couple years ago when we did the Trails Act and which came up with this Trails Assistance Fund, setting some standard's in there as far as fencing, safety, maintenance, and that type of thing. Would these same, would it be your idea that these same standards would apply to trails developed under this fund that you're proposing so that we, so that there would be some assurance that there would...about the sharing of fencing and those standards that we set in that bill?

SENATOR HALL: Senator Beutler.

SENATOR BEUTLER: Senator, this money would be used within the parks. And right now Game and Parks has authority to do trails within their parks if they have the money.

SENATOR WEHRBEIN: Okay.

SENATOR BEUTLER: And they don't have any standards. Usually there's no need for it because the trails are (inaudible)...

SENATOR WEHRBEIN: So it would be entirely within parks, this, this...

SENATOR BEUTLER: Yes. If, if you leave it the way it was, this fund could only be used for within the parks.

SENATOR WEHRBEIN: The...your original amendment.

SENATOR BEUTLER: The new fund.

SENATOR WEHRBEIN: Yeah.

SENATOR BEUTLER: Yeah.

SENATOR WEHRBEIN: Okay. Only within parks. So we wouldn't have to be...

SENATOR BEUTLER: You wouldn't have to worry about that.

SENATOR WEHRBEIN: ...concerned about private, conflict with private owned property and that type of thing.
