

affiliated Class I's, everybody that uses that same high school will pay the same levy to support K-12 education. Everybody...if this passes, everybody that is within West Holt will have the same levy. It may or may not be the same, it probably won't be the same as everybody that is in Cherry County, but everybody that's in Cherry County will pay the same levy to support K-12 education. Everybody that's in Holt County will pay the same levy to support K-12 education. They probably won't be the same across counties. Just like people at Blair...

SENATOR ROBINSON: No, no, I'm talking about people within counties. No, I'm talking about within...

SENATOR WITHEM: Within they will pay a common levy, yeah.

SENATOR ROBINSON: Okay, I'm looking at the data from Cherry County. So each elementary school will pay the same levy in Cherry County that is affiliated with that Class VI, is that correct?

SENATOR WITHEM: Correct.

SENATOR ROBINSON: Is that 80 cents then, or do you have that figure?

SENATOR WITHEM: The figure I have, it looks like it's the bottom, derived total for Class VI system would be .7952, yeah, the 80 cents number.

SENATOR ROBINSON: Okay. What effect do you think that would have on the...I'm looking at some of these that really get whopped here, the high percentage ones like let's take the Valentine school district. Now they would lose 225,000. What effect do you think it would have on that school?

SENATOR WITHEM: Where...what are we talking about now?

SENATOR ROBINSON: Well this is what I got from the state department. They go from...they lose 225,000 in aid.

SENATOR WITHEM: They'd lose that money from the state, but because all of the property in Cherry County would be supporting the system in general, they would gain support from the rest of the property in the county. That's what Senator Baack was talking about out in his county.
