

SENATOR HABERMAN: ...allows state funds that are available for investment to be deposited into commercial banking channels and building and loan channels so long as such institutions provide a bond for the safekeeping of payments of such deposits. The Nebraska State Funds Investment Act created the Nebraska Investment Council to oversee...to oversee the investment of state funds and the purchase, sale or exchange of securities. We created the Nebraska Investment Council to oversee what we're meddling in. We...we...we hired experts. We passed legislation to oversee what we're meddling in. I think that's wrong. I think that we should reconsider, because we've had good debate...I've had good debate. I've had all of my say. I have some more to say. I didn't ex...I didn't pass out to you and explain to you what are the MacBride Principles, I'll be glad to do that, but the MacBride Principles call for American companies operating in Northern Ireland to increase minority repre...representation in the work force. So, we're telling these people, you have to go out and hire minorities. You have to do this. Provide for security, minority work force at work, and traveling to and from work, which means that we have to go out and hire people to protect these people when they go home from work in their cars, on the vans and the buses, and we have to have people hired to protect them when they go back to work. That's what it means. And it bans religious or political emblems. (Inaudible) You have to spend money for special advertising to recruit minority job applicants. So, what...what we're saying to these businesses, you have to do these things regardless. And the business says, well, I can't do these things a hundred percent and make any money. But we're saying in the MacBride Principles, you shall do it. You shall do it. You shall develop a training program and improve the skills of minority workers. Maybe the minority doesn't want to work. We have some minorities here in this great State of Nebraska that doesn't want to work. We have to pass legislation that if you don't work, you're not going to get paid. But we're telling these people in Northern Ireland, you shall go get so much minority people, and you shall make them work. Well, they can't do that. They can't do that. Now, what laws are currently enforced by the British government to combat...combat religious discrimination? The electrical...the Electoral Law Act of Northern Ireland and the Local Government Act of Northern Ireland, both enacted in '69, reformed voting rights...reformed voting rights by eliminating the property franchise and establishing an independent body to designate district election
