

PRESIDENT ROBAK: One minute.

SENATOR CHAMBERS: But not everything they do would be of a governmental nature. They don't perform any functions of services like a city would, or a village board, or a county board?

SENATOR WICKERSHAM: They are designed to produce public activities. Their fairs and other presentations are, to my knowledge, always open to the public. They are designed for the promotion of activities of that nature in their communities.

SENATOR CHAMBERS: But they can charge the public for the affairs they put on, can't they?

SENATOR WICKERSHAM: That's correct.

SENATOR CHAMBERS: And some of them do?

SENATOR WICKERSHAM: That's correct.

SENATOR CHAMBERS: And I think my time is up.

PRESIDENT ROBAK: Thank you, Senator Chambers. Senator Schellpeper, do you wish to speak on the Chambers amendment?

SENATOR SCHELLPEPER: Madam President and members, I would like to ask Senator Chambers a question, if I might.

PRESIDENT ROBAK: Senator Chambers.

SENATOR SCHELLPEPER: Senator Chambers, what are you trying to do with your amendment. I don't have a copy of it in front of me, but what are you attempting to do with ag societies?

SENATOR CHAMBERS: It should look like this and they were handed out. It would be five...

SENATOR SCHELLPEPER: Yeah, I lost it someplace. Here I found it... BS's, okay.

SENATOR CHAMBERS: Okay, now I will tell you what it does, and I would have said it anyway, but you will be able to look at it again.
