McKenzie.

SENATOR McKENZIE: Madam President, I move LB 677E be advanced to E & R for engrossment.

PRESIDENT ROBAK: Senator Bernard-Stevens.

SENATOR BERNARD-STEVENS: Madam President, members of the body, I just wanted to take this time, this would be the best spot, to explain what's going to happen later tonight and why because of this particular bill.   LB 988E and, of course, the A bill that's on Final Reading tonight will have to be passed over, and we'll have to read that sometime on Friday. And the reason is, and we talked about it on the A bill of 988, but I want to make sure that people remember, or if you weren't here at least you understand.   There are three bills that had to deal with the same section of law, LB 991, 677 that we have now before us, and 988.   And, of course, when you have a section of law that's changed three times, the last one that...the last change that we voted on is the one that will be...have preference or precedence. So what we did on 988A is worded it such that it would incorporate the changes in 991 and in 677, if 677E passes, and if it doesn't pass then we've taken care of it as well.   But the sequence, has to be on Final Reading, 991, which has already passed, then 677, and then 988. So that's the reason we'll have to pass over 988 this evening and wait until Friday so it can follow 677, that way everything is taken care of. I just wanted to explain that and I thank the Chair.

PRESIDENT ROBAK: Thank you, Senator Bernard-Stevens.   Any further discussion? Hearing none, all those in favor vote aye, all those opposed nay. LB 677E advances.   LB 1243, oh excuse me, LB 677A.

CLERK: Madam President, 677A, Senator Chambers, I have two amendments with notes that you want to withdraw, Senator. AM2655, and AM4214.

SENATOR CHAMBERS: And what's the last one that you would have?

CLERK: AM4277 is the one I believe you want.   (Chambers amendment appears on page 1683 of the Legislative Journal.)

SENATOR CHAMBERS: Very good, thank you, Mr. Clerk.   Members of the Legislature, the reason there would...there have been
