

to the family of A.L. Zink. I've got to tell you just a short, short story. It may not come as a surprise to you, but in the 1960's, when there was a great deal of political unrest on the campuses and the Military Science Building was occupied by protestors down here at the university, I was a student, and I felt that the campus newspaper had become very distorted as far as the views that it was projecting of the university students. And this might not come as a surprise either, but I felt it needed to be changed. And so a few of us raised some money to put out a rival newspaper on the university campus, and I knew Al Zink, and we didn't have much money at all, but I went to Al and I told him the situation, and Al cared enough about the university and the situation that had developed down here that Al said, well, if you and some students are willing to come up here on the weekends and work, he said I'll take my weekends and help you put out a rival newspaper on the university campus. And we did that, and it seemed to have some impact, but the point is that Al Zink was a guy who contributed tremendously, not only to the community that he was in, Tekamah and Burt County, where I grew up, but he also...he cared enough about people to do, whenever he saw that something needed to be done he would do his part and more than his part to try to make the world that we live in a better place. He will be greatly missed, not only by his family, but by the community. And I've always appreciated what he did and what he didn't have to do at all when I was simply a college student that felt like something needed to be done, he was there to help. He was a great individual, and I thank Senator Robinson for bringing the resolution. Thank you, ma'am.

PRESIDENT ROBAK: Thank you, Senator. Senator Bernard-Stevens.

SENATOR BERNARD-STEVENS: Thank you, Madam President. Merely an observation, and I go back to the resolution 385, introduced by Lindsay and Ashford. And I know Senators Lindsay and Ashford tried to make it appear as if they thought of this on their own and, you know, this was something that they wanted to do, but I wanted you to know that we didn't buy that, Senator Lindsay or Senator Ashford. We know in this body that probably once again you're fronting for Walt Pfeffer (phonetic), and he's put all of this together. But I just want you to know though, we realize your names are on there, we understand where it really came from, and I just wanted to make that clear for the record. Thank you, Madam President.
